

USB 3.1 Gen 1 Flash Drives **JetFlash® 910**

Introducing Transcend's high endurance, high performance JetFlash 910, a USB flash drive that is anything but ordinary. Boasting sensational read speeds of up to 420MB/s and write speeds of up to 400MB/s, the JetFlash 910 delivers top-notch performance in a sleek and portable design. Its aluminum metallic housing will safeguard your data wherever you go.

Metallic radiance

Safeguard your data with Transcend's JetFlash 910, whose aluminum metallic housing with a sandblasted finish is as sturdy as it is sleek. Highly portable doesn't mean fragile, at least not with the JetFlash 910, whose durable design offers top-notch protection of your data inside and out.

Not your usual USB flash drive

The JetFlash 910 may look like your everyday USB stick, but it has performance that goes beyond that of ordinary flash drives. With up to 420MB/s read speeds and up to 400MB/s write speeds, you can transfer 4GB to the drive in less than 15 seconds. Simply plug it in and transfer all your 4K movies and high-resolution images in a flash.

Endurance where it matters

Rigorous day-to-day use tests a regular USB's continued efficiency and durability. Whether you need to transfer a ton of graphics or HD videos on a daily basis, or whether you use your JetFlash 910 with a write-intensive application, like a dashcam - you can count on Transcend's JetFlash 910 to get things done without a hitch! These high-endurance drives have 10 times the lifespan of a regular TLC USB.

USB 3.1 Gen 1 Flash Drives

JetFlash[®] 910
