

Body Cameras DrivePro Body 10

Transcend's DrivePro Body 10 is the best companion for police officers, security guards and other professionals. The camera uses a high-sensitivity image sensor, high-quality lens, and automatic infrared illumination that ensure all the important details of actions are clearly recorded. The DrivePro Body 10 also features a built-in battery and excellent water and shock resistance, making it ideal for indoor and outdoor use.

High-Sensitivity Image Sensor

Transcend's DrivePro Body 10 features a high-sensitivity image sensor to capture high-resolution video and photos with superb, rich color. Even in low light, images are highly detailed with low noise and excellent dynamic range.

Infrared LEDs for Night Vision

Transcend's DrivePro Body 10 has four no-glow (940nm wavelength) infrared LEDs that automatically turn on in dim light to enhance night vision capabilities. This drastically increases recording quality in pitch-black darkness.

Note: Footage and snapshots taken with infrared LEDs enabled will be in grayscale.

Built-In Battery

With a built-in Li-Polymer battery, the DrivePro Body 10 can record up to 7 hours* of footage on a full charge, mitigating the need for a power adapter for police officers on duty.

Note: Recording time may differ based on environmental conditions and operation settings (e.g., enabling infrared during night recording consumes more power, resulting in a shorter recording duration).

Body Cameras

DrivePro Body 10

Features

- Handy snapshot to take photos while recording a video
- Loop recording to overwrite old video files with new ones
- Connect to mobile devices easily and quickly

DrivePro Body Toolbox

DrivePro Body Toolbox allows you to securely manage videos and snapshots, adjust settings, format internal storage, and upgrade firmware.

DrivePro Body App

DrivePro Body App is designed for the DrivePro Body series. Manage camera settings and view recordings from your mobile device.

Specifications

Appearance

Dimensions	88.4 mm x 52.2 mm x 19.6 mm (3.48" x 2.06" x 0.77")
Weight	88 g (3.10 oz)

Interface

USB Type	USB Type C to USB Type A
Connection Interface	USB 2.0

Storage

Capacity	64GB microSD card included
----------	----------------------------

Hardware

Viewing Angle	130° (diagonal)
Aperture	F/2.8

Power

Battery Life (Max.)	7 hour(s)
Power Supply (Max.)	Input: AC 100V-240V, 50-60Hz, 0.4A Output: DC 5V / 2A

Format

Resolution	Full HD 1080P
Frame Rate	60/30 fps
Video Format	MP4 (H.264)

Warranty

Certificate	CE / UKCA / FCC / BSMI / MIC / KC / EAC / RCM
Warranty	Two-year Limited Warranty

Package

Package Contents	Full unit / 64GB microSD memory card / Adapter / 360° rotating clip / Velcro holder / USB Type-C to Type-A cable
------------------	--
